

American Apprenticeship Initiative Grant Award Summaries

South Carolina State Board for Technical and Compressive Education – Columbia, SC

SC State Board for Technical and Compressive Education was awarded \$5 million to lead the South Carolina Apprenticeship Initiative, a competency-based, accelerated training that builds skills and transfers industry knowledge. Employer benefits from apprenticing workers will be documented in an original Return on Investment (ROI) study by the University of South Carolina, Division of Research. The Initiative will serve 1,000 workers; 750 new hires and 250 incumbent apprentices in the Manufacturing Industry.
